A Diamond in the Rough

What is a girl to do when she discovers a talented artist right here in Pinalejo city? She packs some examples up in her suitcase to take home to sell...that is what she does! Tito is one of my favorite people. He carves wood almost as if he were trying to free the animals and flowers from the trees. I discovered his talent when I was looking for someone to detail the front door of the new coffee building. Tito (his

nickname) was recommended to me by some people in Pinalejo. They said he was talented, but I had no idea really just how talented his was. He is a hard working man, who ekes out a living by adding special details to doors, cabinets and a few custom pieces of furniture. He has a unique ability to observe the living things commonly found in his back yard and then translates them into wood carvings. It

would be my hope we could find the right items that would appeal to those in the United States to help Tito do a little better than just get by. Items are available for sale through the internet via the Green Parrot Coffee website. If you have a special item you would like to order such as a family crest or business logo, you can contact me personally. We are taking orders for Christmas. Santa's reindeer have a hard time with our tropical heat so order early!
